6. Year of validation	2019/20
Year of amendment	
7. Language of study	English
8. Mode of study	Full time (Part time pathway offered)

9. Criteria for admission to the programme
Admission to the programme is normally by Workshop/Interview.
International students for whom attendance for interview is not practical will be offered the opportunity to submit a recorded scene of their choice.
Academic experience, interest and qualifications will be considered as well as practical skills in performance, or the potential for development of such skills.

Candidates should be able to display a strong interest in the theory and practice of theatre.

Candidates with disabilities are warmly encouraged to apply and to discuss with teaching staff what the programme will be able to offer them on an individual basis; we will also facilitate a visit to the campus to assess its accessibility for candidates where this is necessary.

Candidates for whom English is not the first language will be required to provide evidence of sufficient English language competence to enable them to undertake the Programme successfully. The minimum requirement is an IELTS score of 6.0 or equivalent. Where the IELTS score has been achieved but a minimum of 5.5 has not been reached in every element, candidates are very strongly encouraged to attend the University's pre-sessional preparation programme for International Students (details are available from the Admissions Office).

We normally offer places on the programme to candidates achieving 112 UCAS tariff points. Mature candidates who do not have these formal qualifications but who have commensurate experience are very much encouraged to apply.

10. Aims of the programme

The programme aims to:

1. Develop autonomous, enterprising graduates able to access and shape the theatre industry and related industries.
2. Create opportunities for collaboration and partnership with industry and/or social enterprise across and beyond the programme.
3. Utilise diversity as a resource to equip students as drivers of innovation in theatre, offering a range of disciplines, skills and opportunities for specialism which place students at the forefront of emerging theatre and performance practices.
4. Produce thinking practitioners and practitioner-thinkers who are empowered to create and reflect upon theatre as a form which embraces risk, celebrates critical engagement and pushes beyond current thinking and practice.

11. Programme outcomes

A. Knowledge and understanding

On completion of this programme the successful student will have knowledge and understanding of:

1. key processes and principles relevant to the practice and study of performance/directing and theatre production
2. a diverse range of critical, cultural and historical perspectives on theatre as a live art form, and how these are

Teaching/learning methods

Students gain knowledge and understanding through:

1. a structured learning experience, which supports and enables increasing levels of autonomy with students taking significant control over and responsibility for their own work in Year Three.
2. active approaches which aim to put students at the centre of their studies, to

12. Programme structure (levels, modules, credits and progression requirements)

12.1 Overall structure of the programme

Students take four 30-credit modules at each level, comprised of a compulsory programme at level 4 and three compulsory modules plus one optional module at levels 5 and 6. Compulsory modules engage students in an integrated study of the processes and contexts of performance and theatre making, while optional modules allow students to pursue areas of specialist interest. Students intending to exit with the award **BA (Hons) Theatre Performance and Production** take the following programme (with the option to exit with CertHE or DipHE at the end of levels 4/5):

Year 1	Year 2			Year 3

Exit with Cert HE Theatre Performance and Production (120 credits)

Exit with Dip HE Theatre Performance and Production (240 credits)

Exit with BA (Hons) Theatre Performance and Production (360 credits)

All modules 30 credits

Bridging and programme planning

All students participate in Bridging sessions at the end of levels 4 and 5 to prepare for the following year of study. During these sessions, students engage in tutor-supported programme planning to select their modules for the following years. Modules are chosen at the end of level 4 and reviewed at the end of level 5.

Transfer to specialist pathway

At the end of level 5, and at the discretion of the Programme Leader, students have the option to transfer onto the **BA Theatre Directing and Production** exit award. This pathway is an opportunity for students who have demonstrated a sustained interest in theatre directing throughout their programme to have this specialism recognised in the title of their degree. The requirements for transferring to this pathway will be made clear to students throughout their programme, including at programme induction and Bridging sessions.

The exit award recognises sustained specialist practice within collaborative modules and therefore has no discrete Programme Outcomes. Students opting for this exit award take a 90-credit prescribed pathway (see below) including one discrete module: THE3536 Theatre Festival (Directing); which runs alongside THE3535 with specialised learning outcomes.

Students wishing to transfer to this exit award will typically attend a tutorial with the Programme Leader where they will be expected to demonstrate sustained engagement with the study and practice of theatre directing in their first/second years. This will typically be achieved through a combination of the following:

- Assuming a directorial role in project work on THE1515 Making Theatre and/or THE2525 Performance Project.
- Engaging with the directing aspect of the syllabus on THE2024 The Actor and Director and/or THE2030 The Scenographer.
- Engaging with theories and contexts relevant to theatre directing, e.g. in THE1003 Perspectives on Theatre.

Students on this pathway will also be required to take on a directorial role in THE3536 Theatre Festival (Directing), which runs alongside THE3535 with specialised learning outcomes.

12.2 Levels and modules		
Starting in academic year 2010/11 the University is changing the way it references modules to state the level of study in which these are delivered. This is to comply with the national Framework for Higher Education Qualifications. This implementation will be a gradual process whilst records are updated. Therefore, the old coding is bracketed below.

12.3 Compensation

All modules are non-compensatable (note statement in 12.2 regarding FHEQ levels). Students have an opportunity to re-sit any/all assessment tasks before the following academic year. If passed they progress, if not students will re-take the module.

13. Curriculum map

See attached.

14. Information about assessment regulations

The Programme conforms to the Middlesex University Regulations. In view of the developmental and collaborative nature of the work on this programme, there is a 75% attendance requirement on all modules. Self-deferral of assessments is not permitted.

Failure or deferment of an assessment is normally allowed a resit at the next available opportunity. In the case of practical work particularly group practical work, and individual practical work where the material is developed through the process of a taught module – your reassessment may need to be planned as part of the next scheduled run of the module. This may mean that your resit has to happen in the following academic year and involve you attending classes and workshops for part or all of the module to support the reassessment.

15. Placement opportunities, requirements and support

All students are offered the opportunity to participate in a work placement as part of the compulsory Level 6 module THE3005 Theatre Industry: Placement and Portfolio.

The department has an extensive portfolio of long-established placement providers. These are supported in-house by a Placement tutor in conjunction with the University's MDXworks team, which provides extensive resources and support for placements.

16. Future careers (if applicable)

Students have access to the University's Careers service, MDXworks, and careers development and planning is one of the University's Graduate Skills. Specialist tutors on the programmes address employment-related issues as they arise in the course of teaching, and they are embedded in the compulsory Theatre Industry modules THE2005 and THE3005.

Theatre Performance and Production students typically graduate to diverse career paths directly in the theatre industry as well as its many peripheral industries. Students typically progress to careers in performance and performance-making, directing, dramaturgy, producing and arts management; as well as careers in arts administration, teaching and non-theatre based careers within film, media, events and other creative industries. A large number of graduates go on to form their own companies, collectives and arts organisations, while many also opt to continue study at post-graduate level. Middlesex offers postgraduate routes such as MA Theatre Arts, MA Arts Management. Recent industry reports describe Theatre as an excellent subject area for academic study, and we flag here that the revised programme aims address all five Middlesex graduate employability skills directly.

17. Particular support for learning (if applicable)

Students on this programme have access as needed to specialist studio and performance space and equipment, workshops, and tutors.

18. JACS code (or other relevant coding system)	W400 W470 W442
19. Relevant QAA subject benchmark group(s)	Drama, Dance and Performance

20. Reference points

The following reference points were used in designing the Programme:

- Middlesex University Corporate Plan
- QAA Subject Benchmark and Qualifications Level Descriptors
- Middlesex University Learning and Teaching Strategy
- Middlesex University Regulations

21. Other information

N/A

Please note programme specifications provide a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve if s/he takes full advantage of the learning opportunities that are provided. More detailed information about the programme can be found in the rest of your programme handbook and the university regulations.
