Appendix 1 Programme Specification and Curriculum Map for the BA Social Work Programme 2019/20

In this section you will find details of all the learning outcomes for the programme, and the modules where you will achieve them.

The curriculum map was correct at the time this handbook was published but details change over time and therefore you should always refer to the latest version available on the My Study area of MyUniHub.

9. Criteria for admission to the programme
Details on admission to the programme can be found at: [http://www.mdx.ac.uk/courses/undergraduate/social_work/social_work_ba.aspx](http://www.mdx.ac.uk/courses/undergraduate/social_work/social_work_ba.aspx)

- Minimum UCAS points threshold of 120 or equivalent applied to applicants applying with tariff bearing awards such as ‘A’ levels. This is equivalent to grades BBC where three A-levels are taken and should be made up from level 3 qualifications rather than non-academic qualifications.

- GSCE Grade C or above in English and Maths or certificated equivalences.

- For those entering via Access routes, we are looking for evidence in your application that you are expecting to obtain a merit in your award and in the reference from your tutor.

- The ability to use IT facilities including word processing, internet browsing and use of email.

- We also welcome applicants with a wide variety of educational experience including equivalent qualifications from international and overseas.
• Successful completion of a written test which demonstrates the applicants’ ability to write clearly and coherently in the English language. We use testing instruments to test literacy as well as the applicants’ potential to develop reflective, analytical and conceptual thinking through an essay on a current social issue.

• Applicants whose first language is not English must meet communication and comprehension skills to International English Language Testing System (IELTS) with a score of 7 (with 6.5 in all elements).

• Successful performance in an on-line written assessment which tests the applicant’s communication skills, motivation and commitment, their understanding of how social work and evaluation of their life and work experiences is relevant to their training to be a social worker.

• Service users and employer partners’ involvement in and moderation of admissions assessments.

• An assessment of the applicant’s suitability and fitness for practice through a self-declaration, appropriate references, a satisfactory check on their criminal record and background including the safeguarding register and any further information gathering as indicated via other professionals or further interview and assessment.

10. Aims of the programme
The programme aims to:

• Produce professionally capable, graduate social work students who at the point of completion of their social work degree meet all of Social Work England Professional Standards and the associated BASW Professional Capabilities Framework domains. Thus, enabling students to be critically reflective, confident, effective and resilient social workers who are fit for professional practice and employment in the sector.

• Equip students with the appropriate levels of knowledge, values and skills enabling them to understand and work within a professional social work context. Students will be enabled to analyse, undertake casework interventions and manage and lead the process of change necessary to achieve quality outcomes for service users/carers and to actively promote their needs.

• Promote a collaborative approach to working in partnership with the Programme’s Stakeholders, including employers, students and service users and carers to ensure the efficacy and currency of the programme and that all participants work safely and accountably.

• Integrate the programme learning, teaching and assessment strategies with the key requirements for contemporary practice and utilise the knowledge, research and evidence from both theory and practice. Offering students an intellectually rewarding and stimulating three year undergraduate programme where theory, practice, skills and values are integrated throughout both academic and practice modules.

• Contribute and champion the mission of the University by working closely within its structures and processes, to ensure that student support is maximised and valued to enable students to successfully achieve their ambitions.

11. Programme outcomes

A. Knowledge and understanding

On completion of this programme the successful student will have knowledge and understanding of:

1. The diverse and complex range of disciplines contributing to social work knowledge and how these inform models of intervention used in social work.

2. Contextual sociological, psychological, political, economic and cultural perspectives and their interaction with social work interventions.

3. Expectations of what it means to be a professional and the regulatory framework determining social work behaviour and conduct.

4. The policy and legislative framework of social work including human rights, safeguarding and protection.

Teaching/learning methods

Students gain knowledge and understanding through:

• research-based exercises in practitioner enquiry;

• peer and individual led virtual classroom presentations which demonstrate synthesis and interrogation of different sources of knowledge;

• Virtual practice tutorials in placement;

• debate and discussion in small and large groups and through reading and critical reflection on learning materials.

Assessment methods

Students’ knowledge and understanding is assessed by:

• research-based exercises in practitioner enquiry, particularly summatively in the final year project;

• peer and individual presentations which demonstrate synthesis and
5. Diversity and service-user perspectives, based on research and evidence in relation to issues impacting on different groups in society and the debates in relation to the effectiveness of interventions and practice.

6. Research mindedness and research and evidence-based methodologies.

7. Theories about communities, professional authority and boundary-setting including how these interact with theories of co-production, participation and power imbalances in society.

B. Cognitive (thinking) skills
On completion of this programme the successful student will be able to:

1. Analyse, critically reflect on, challenge and advocate in situations of diversity and inequality using research and evidence.

2. Analyse, critically reflect on their own experiences and values and how they challenge and advocate in situations of diversity and inequality using research and evidence.

3. Articulate and demonstrate a commitment to social work values and their own value base. Manage the dilemmas inherent in statutory work and critically reflect on power dynamics taking into account the strengths and relationships with service users.

4. Apply multiple perspectives to areas of social work and formulate lines of enquiry and research interests.

Teaching/learning methods
Students learn cognitive skills through:

- reflective activities solely or in groups;
- interrogating and debating learning materials;
- recording and evaluating students’ own development and progress through the programme via the placement and their professional development plan.

Assessment methods
Students’ cognitive skills are assessed by:

- tutor-based exercises through debates, discussion;
- research evaluation activities and drawing out implications for practice;
- written assignments demonstrating understanding of theories and knowledge and their application.

C. Practical skills
Teaching/learning methods
Students learn practical skills through:

- interrogation of different sources of knowledge;
- debate and discussion in small and large groups;
- practice learning portfolios bringing knowledge and practice together;
- analysis of case studies;
- web-based inquiry to collect demographic information about community populations;
- observational visits and/or virtual exploration via web-based resources.
On completion of the programme the successful student will be able to:

1. Complete skilled verbal communication (including interviewing, debating, verbal reasoning, mediation, conflict resolution, communicating with children, effective use of supervision, court-room and case presentation). Communicate effectively with a wide range of users and carers in accordance with their needs.

2. Written communication (including process-recording, case-notes, case-histories, case-summaries, court reports, genograms, and eco-maps). Work within policies and procedures and undertake administrative tasks around finance, recording and writing for different audiences.

3. Professional assessment (including observation, hypothesis setting & testing, risk assessment, mental-state & capacity). Implement a range of interventions with service users including interviewing, assessment and review, based on research evidence.

4. Professional interventions (including basic counselling, advocacy, life-stories, crisis-intervention, safeguarding, ethical decision-making, personalisation). Build appropriate relationships with service users, by implementing a co-productive approach to interventions where possible and develop skills of observation (of people and practice).

5. Work effectively with different groups in different settings and virtually and be able to describe the different roles pare undertaken within the multi-disciplinary team.

6. Work collaboratively with the ability to communicate with different professionals and stakeholders in care settings.

- 30 days workshops in direct practice skills virtually and/or face to face;
- practice learning placement.

**Assessment methods**

Students’ practical skills are assessed by:
- development of placement portfolios;
- practice learning assessments;
- student presentations.
7. Undertake searches for research evidence and interrogate sources of knowledge to improve practice.

Please see Appendix 2

14. Information about assessment regulations

The Social Work Programme abides by the assessment regulations outlined in Middlesex University’s guide and regulations. Owing to the professional nature of this programme, there are a number of additional regulations. The University is required to abide by the entry threshold criteria and standards of conduct, performance and ethics of the Health and Care Professions Council, Social Work England.
Fitness for Practice is a key part of this programme; details of our Fitness for Practice Procedures are outlined in the Appendices of this Handbook and in the Placement Handbook.

Students must pass all components of assessment for each year of their studies for them to progress to the next academic year. All components of the Programme must be successfully completed before the BA (Hons) Social Work can be awarded. Named exit awards are given if students exit the programme at key points.

Fail grades are not compensated for on any social work module.

A minimum of 75% attendance is required for all BA (Hons) social work modules in order for students to be entered for assessment. Practice learning must have a 100% attendance through completing the number of days required, which are 170 days overall. This is comprised of 70 days in the first placement in year 2 and 100 days in the second placement, year 3. Placements may take place in ‘hybrid arrangements’ where student attend face to face and/or, using digital means

Students will also complete the equivalent of 30 days of practice skills in relation to readiness for direct practice and throughout the programme.

Only two attempts are normally given to students for each module unless there are exceptional circumstances with clear evidence, at the discretion of Director of Programmes and Programme Leader. Placements are the exception to this where a second attempt at placement is only given following an investigation by the Practice Advisory Panel into the circumstances of the placement fail, termination or contested ending of placement and endorsement.

15. Placement opportunities, requirements and support (if applicable)

Practice learning takes place digitally and in person in organisations and settings centred on the provision of social work and social care. Our placements are all quality assured and the learning opportunities are identified in accordance with the thresholds of learning in the Professional Capabilities Framework.

For example, you can expect to typically have your first placement in a community-based setting within the private or voluntary sector where you will gain experience of direct work with service users, in undertaking assessments and interventions and of working with other professionals within inter-professional networks.

In your final placement you will gain experience of undertaking statutory tasks and you are likely to be placed in a local authority or health trust providing adult or children’s services. Placements are also matched to students’ learning needs.

16. Future careers (if applicable)

There are a wide variety of career opportunities for qualified social workers in the statutory, voluntary and independent sectors. These are with different user groups in different models of social welfare.
The University organises annual career fairs for students. Tutors support students’ preparation through their Tutor Groups and professional development planning as well as linking them to the central university services.

17. Particular support for learning (if applicable)

Students have an allocated personal tutor throughout the programme, who oversees the academic and professional development of the student. The social work programme makes effective use of the University Student Support Services and the Information and Learning Resource Services.

18. JACS code (or other relevant coding system)

| L500 |
