Purpose
Middlesex University made a commitment to Fairtrade in 2017 by becoming a Fairtrade Awarded University. Committing to Fairtrade at Middlesex University strengthens the University’s Vision, Mission and Values.

Background
In partnership with the Student Union Merchandise and our Catering provider we promote and provide a wide range of Fairtrade food and cotton across campus.

Having a Fairtrade award status strengthens the University’s Vision, Mission and Values, Fairtrade is a simple way of helping to change people’s lives.

Our status demonstrates our passion for fairness and giving people the chance to better their future. It helps us to understand how farmers are exploited, underpaid and allows us the chance to inform and educate our next generation. As consumers they can make a difference to these people’s lives and help pave the way to a better future.

Fairtrade is a strategy for poverty alleviation and sustainable development. Its purpose is to create opportunities for producers and workers who have been economically disadvantaged or marginalized by the conventional trading system.
