

Programme Specification and Curriculum Map for *BSc(Hons) Economics*

1. Programme title	BSc (Hons) Economics
2. Awarding institution	Middlesex University
3. Teaching institution	Middlesex University
4. Programme accredited by	
5. Final qualification	Bachelor of Science (Honours)
6. Academic year	2020/21
7. Language of study	English
8. Mode of study	Full-time/Part-time/Thick and thin sandwich

9. Criteria for admission to the programme

For year one admission, Middlesex University general entry requirements apply, including GCSE's (grade A C) (or equivalent) in mathematics and English language. Applicants whose first language is not English are required to achieve a minimum score of 6.0 in IELTS overall (with a minimum of 5.5 in each component) or an equivalent qualification recognised by Middlesex University.

The equivalence of qualifications from outside UK will be determined according to NARIC guidelines.

Specific programme requirements are 112 UCAS points or equivalent. Students not meeting this may be eligible to join at year zero, the foundation year.

10. Aims of the programme

The programme aims to:

- provide students with a thorough theoretical and practical training in microeconomics, macroeconomics and econometrics as well as specialization in applied fields;
- facilitate the development of analytical and quantitative skills in economics;
- provide students with a reflection of the theory and application of economics to decision making and policy, and an appreciation of the relationship of economics to other disciplines;
- provide students with an ability to search and analyse data as well as interpret and present empirical findings;
- prepare students to communicate complex economics concepts and techniques to a non-specialised audience;
- provide students with a range of core and transferable skills including analytical, numerical, information technology and autonomous learning skills;
- prepare students for professional careers in consultancy, organisations in public and private research organisations, financial industry, and international institutions;
- provide an ideal foundation for postgraduate study.

11. Programme outcomes	
<p>A. Knowledge and understanding</p> <p>On completion of this programme successful students will have knowledge and understanding of:</p> <ol style="list-style-type: none"> 1. relevant quantitative methods and computing techniques needed for economic analysis; 2. economic concepts, principles and tools; 3. the nature, sources and uses of both quantitative and qualitative data and the application of appropriate methods for analysing such data; 4. economic policy at both the microeconomic and macroeconomic levels; 5. the application of economics to a variety of applied topics such as individual, firm behaviour and government decision making; 6. verbal, graphical, mathematical and econometric representation of economic ideas and analysis, including the relationship between them. 	<p>Teaching/learning methods</p> <p>Students gain knowledge and understanding through guided reading of textbooks, academic journals and in-class exercises, lectures, workshops, seminars, and specialised computer labs, which are supported by on-line learning resources.</p> <p>Assessment Methods</p> <p>Students' knowledge and understanding is assessed by presentations, examinations and written assignments.</p>
<p>B. Cognitive (thinking) skills</p> <p>On completion of this programme successful students will be able to:</p> <ol style="list-style-type: none"> 1. articulate, communicate and present economic arguments to both specialist and non-specialist audiences using verbal, graphical and statistical means; 2. discuss, analyse and evaluate government policy and assess the performance of different economies and the global economy; 3. apply economic reasoning to economics topics; 4. relate differences in economic policy recommendations to differences in the theoretical and empirical features of economic analysis that underlie such recommendations; 5. select and apply appropriate methods and techniques to enable manipulation, treatment and interpretation of relevant data and interpretation of economics relationship; 6. learn independently and in teams and be capable of critical reflection. 	<p>Teaching/learning methods</p> <p>Students learn cognitive skills through reading the required texts and articles; listening, discussing and presenting a series of topics and theories; identifying suitable research articles to support their learning; organizing and analysing datasets with appropriate software in labs, and applying theory to a specific problem and producing a significant piece of work based on their analysis.</p> <p>Assessment Method</p> <p>Students' cognitive skills are assessed by all forms of assessment used in compulsory and optional modules, especially in unseen examinations and in various types of coursework, group presentation, exercises and in-class tests.</p>

12. Programme structure (levels, modules, credits and progression requirements)
12. 1 Overall structure of the programme
<p>The programme is designed to provide students with the technical, analytical skills and critical thinking demanded for post graduate study or good analytical skills that are in demand across many industry sectors (Banking, Power Industry, Policy work, Pricing strategies for cellular, airline, shipping companies). Students exiting the course will have acquired the analytical and quantitative tools expected from a high-quality</p>

economics degree and will have the ability to apply these tools to real-life situations. This programme is targeted at students with a good academic background interested in undertaking postgraduate study in economics or working as professional economists.

The programmes are delivered over three years, or four years if an optional industrial placement is taken. For the BSc (Hons) degree students must gain 360 credit points (480 if on placement) 120 of which must be at level 6. The programme is made up of eight ECS compulsory modules over Years 1 and 2 for all students on the programme. Then students can select two optional modules at level 6, with the other two ECS compulsory modules. Students at Level 4 can progress to Level 5 with a minimum of 90 credits inclusive of the two non-compensatable modules ECS1003 and ECS1004. Students who failed either of the two non-compensatable modules (ECS1003 and ECS1004) will automatically be transferred to BSc Business Economics programme at Level 5. After Year 2, students can choose to switch to BSc(Hons) Economics(Financial Economics) if they find it more suitable for their interests and career plan.

1. Full time – 3 year programme (360 credits)

Level 4

ECS1011 Economics Principles (30 credits)	ECS1012 Economic Applications (30 credits)	ECS1003 Statistics & Inference (30 credits)	ECS1004 Quantitative Techniques I (30 credits)
--	---	--	---

Level 5

ECS2001 Microeconomics (30 credits)	ECS2002 Macroeconomics (30 credits)	ECS2003 Econometrics (30 credits)	ECS2004 Quantitative Techniques II (30 credits)
---	---	---	--

Level 6

ECS3002 Advanced Macroeconomics (30 credits)	ECS3003 Advanced Econometrics (30 credits)	Optional Module (30 credits)	Optional Module (30 credits)
---	---	---------------------------------	---------------------------------

List of Optional Modules – Level 6

1. ECS3001 Advanced Microeconomics (30 credits)
2. ECS3004 Trade and Growth (30 credits)
3. ECS3007 Industrial Organisation and Policy (30 credits)
4. ECS3017 Labour and Development Economics (30 credits)
5. ECS3022 Economics of Entertainment and Sports (30 credits)
6. ECS3120 Monetary Policy (30 credits)

2. Full-time – 4 year thick sandwich programme with Placement (480 credits)

Level 4

ECS1011

(30 credits)

Optional Module
(30 credits)

Optional Module
(30 credits)

List of Optional Modules – Level 6

1. ECS3001 Advanced Microeconomics (30 credits)
2. ECS3004 Trade and Growth (30 credits)
3. ECS3007 Industrial Organisation and Policy (30 credits)
4. ECS3017 Labour and Development Economics (30 credits)
5. ECS3022 Economics of Entertainment and Sports (30 credits)
6. ECS3120 Monetary Policy (30 credits)

4. Part-time mode

Part time students study the programme over a maximum of six years, taking between 60 to 90 credits per year. The order of modules will be discussed on an individual basis with the programme leader based on both prerequisite requirements and your individual needs.

12.2 Levels and modules

Level 4

COMPULSORY

Students must take all of the following:
ECS1011
ECS1012
ECS1003
ECS1004

OPTIONAL

None

PROGRESSION
REQUIREMENTS

Students can progress to Level 5 with a minimum of 90 credits inclusive of the two non-compensatable modules ECS1003 and ECS1004.

Students who failed either of the two non-compensatable (ECS1003 and ECS1004) will automatically be transferred to BSc Business Economics programme at Level 5.

Level 5

COMPULSORY

OPTIONAL

PROGRESSION
REQUIREMENTS

Students must take all of the following: ECS2001 ECS2002 ECS2003 ECS2004	MBS2333 MBS3331/2 MBS3431/2	Students must pass a minimum of 210 credits (exclusive of placement) to progress.
Level 6		
COMPULSORY	OPTIONAL	PROGRESSION REQUIREMENTS
Students must take all of the following: ECS3002 ECS3003	Students must choose one of the following modules: ECS3001 ECS3004 ECS3007 ECS3017 ECS3022 ECS3120	Students must pass 360 credits (exclusive of placement) to gain an Honours degree

12.3 Non-compensatable modules (note statement in 12.2 regarding FHEQ levels)	
Module level	Module code
Level 4	ECS1003
Level 4	ECS1004

13. Curriculum map See Curriculum Map attached at the end of this document.

14. Information about assessment regulations Middlesex University Assessment Regulations apply to this programme.

15. Placement opportunities, requirements and support (if applicable) A 12 month placement (MBS3331/MBS3332) is an optional module at the end of Level 5 and is worth 120 credits. Students will have to take the initiative to secure a placement with support from the Middlesex Employability Centre before choosing it as an optional module. The placement forms the basis for an assessed report based on the organisation in which the student is attached. At the start of the placement students are allocated an individual supervisor from the university who provides individual support and advice for the duration of the placement and the project. All projects are double marked. Placements allow the student to gain work experience and also to test out a function or area in which they think their career will progress after graduation. On many occasions the placement will help students with their academic studies when they return to university for their final year. They also provide good opportunities for networking, as a source for references and can even secure future employment after graduation with the employer. Alternatively, students may opt to take one or two shorter placements, each worth 60 credits, through years 1 and summer (MBS2333) and/or through years 2 and summer (MBS3431/MBS3432). Students will have to secure their shorter placements individually first, then get approval to register them as part of their study. These shorter placements allow the student to gain work experience but to still graduate after three years. The Employability Centre, CG07, includes an MDX work experience team that can provide support and guidance for placements, internships, work experience opportunities and volunteering. The employability

advisor for the Business School who can specifically help you is Elaine Elson, who can be contacted on extension 15341 or by email at E.Elson@mdx.ac.uk

16. Future careers (if applicable)

Economists with analytical and quantitative skills are highly sought after by the private and public sector, big and small firms, large international agencies, schools and universities, economic policy makers, and social organisations. Students exiting the programme could have a career as:

- Applied Economist
- Business Analyst
- Economic Consultant
- Energy Research Officer
- Environmental Economist
- Financial Policy Advisor
- Graduate Economist
- Health Economist
- International Economist
- Institution Development Coordinator
- Teaching Assistant in Economics
- Microeconomic Analyst
- Policy Analyst
- Trainee Dealer
- Pricing departments for Mobile phone companies, airlines, power industry, etc.

Graduating students with a BSc (Hons) Economics Degree will be advantageously equipped to further complement their technical skillset with Middlesex's newly developed Master of Behavioural Economics in Action.

17. Particular support for learning (if applicable)

- Dedicated programme support team
- English Language support
- Learning Resources
- Learning Enhancement Team
- Personal and professional development sessions
- Programme Handbook and Module Handbooks
- Welcome programme
- Wellbeing service
- On-line learning environment on MyUnihub
- Visiting speakers seminar series
- Learning Resources including specialised software
- Training on using Bloomberg and Datastream – specialist data base for economic and financial data
- Access to the Chartered Management Institute web-based activities and resources
- One-to-one consultation with tutors during their office hours
- Graduate Academic assistants and Student Learning Assistants providing peer supports students' learning.

18. JACS code (or other relevant coding system)

L100

19. Relevant QAA subject benchmark group(s)

QAA Subject Benchmark in Economics (2019)

20. Reference points

- QAA Guidelines for programme specifications
- QAA Framework for Higher Education Qualifications (FHEQ)
- QAA Subject Benchmark in Economics
- QAA Codes of Practice
- Middlesex University Regulations
- Middlesex University Mission and Vision
- Middlesex University and Business School Learning, Teaching and Assessment Strategy
- Middlesex University Learning Framework – Programme

21. Other information

Opportunities available to students:

Sage, Datastream and Bloomberg Certification

Distinguished Lecture Series

Please note programme specifications provide a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve if s/he takes full advantage of the learning opportunities that are provided. More detailed information about the programme can be found in the programme handbook and the University Regulations.

Curriculum map for *BSc(Hons) Economics*

This section shows the highest level at which programme outcomes are to be achieved by all graduates, and maps programme learning outcomes against the modules in which they are assessed.

Programme learning outcomes

Knowledge and understanding	
A1	relevant quantitative methods and computing techniques needed for economic analysis;
A2	economic concepts, principles and tools;
A3	the nature, sources and uses of both quantitative and qualitative data and the application of appropriate methods for analysing such data;
A4	economic policy at both the microeconomic and macroeconomic levels;
A5	the application of economics to a variety of applied topics such as individual, firm behaviour and government decision making;
A6	verbal, graphical, mathematical and econometric representation of economic ideas and analysis, including the relationship between them.
Skills	
B1	articulate, communicate and present economic arguments to both specialist and non-specialist audiences using verbal, graphical and statistical means;
B2	discuss, analyse and evaluate government policy and assess the performance of different economies and the global economy;
B3	apply economic reasoning to economics topics;
B4	relate differences in economic policy recommendations to differences in the theoretical and empirical features of economic analysis that underlie such recommendations;
B5	select and apply appropriate methods and techniques to enable manipulation, treatment and interpretation of relevant data and interpretation of economics relationship;
B6	learn independently and in teams and be capable of critical reflection.
