Life on campus
Universities offer support to students around financial, practical or legal difficulties that might come up whilst studying.

At Middlesex for example we offer one-to-one support through appointments, phone calls and email as well as workshops.

Most universities including Middlesex will offer a free confidential counselling service through either one-to-one counselling sessions, group workshops or referrals to specialists when required.
At Middlesex we have therapy dogs who support students and are an integral part of our teaching team. They work with each academic department to find ways to help reduce the stress and anxiety students might be facing.
Student Q&A

Now it's your turn to ask our student ambassador any questions about University
