My Careers Match

Which Careers Match Your Skills?
What is My Careers Match?

- It is a *Personality Assessment tool* that gives a young person an understanding of their skills and qualities.

- It tells them their ‘personality type’ and what values they would bring to a job.

- Each person is unique, but we all share some common characteristics that group us into certain personality types.
What are the benefits of a Personality Assessment

- Many young people don’t know what they want to do
- A useful tool to develop self-awareness and provide some guidance
- Guides young people towards occupations/sectors that suits them, not what someone else thinks they should do
- The report presents career options that they may not have considered
- Increases a young person’s self-confidence
- Feels exciting to know a bit more about themselves!
There are 4 personality types, we call these DOMINANT styles, and there are 16 combinations and you will be one of these.
How does it work?

• You complete an online survey
• It asks you a series of questions
• Based on your answers it will give you an idea of what your personality type is
• This personality type will be more suited to certain careers
• You will then be able to see what career options may be worth exploring

Remember

✓ This is not a test so you can’t pass or fail
✓ There are no right or wrong answers
✓ Just tell us about yourself
✓ The more truthful you are, the more accurate the report is
✓ Don’t give answers to please someone else
✓ Sometimes you’ll find it hard to choose which is most and which is least like you.
✓ This is about YOU!
Careers Match / Discover Me

You’ll find out where you fall based on the answers you put in as an example you might be a supporter.
Congratulations!
you are a Supporter

Well done on completing the questionnaire.
The answers you gave tell us that you are a SUPPORTER.

As a Supporter you enjoy helping and working with other people. You are a friendly person who makes decisions based on people you trust and like. You are a great listener and are good at solving problems the easy uncomplicated way. You like to consider all your options and won’t make a decision until you’ve done this. You are a practical person who likes to get on with it but resist being pressured into making a decision until you’ve had time to think about it.
Some information about you

About you
Supporter Analysts are caring people who accept others for who they are. You are easy to talk to and a great listener. You'll help others even if you don't have the time. Your empathetic behaviour makes you a friendly, thoughtful person who has good relationships with people. You like it when people work together and get along with each other. You are patient and a wonderful team player. Your loyalty and dependability are your strengths.

You like to follow rules and do things in a logical way. You are cautious, and you don't like to be pressured. You won't rush into making a decision instead you like to check things out and think it over first. But if you say you'll do something, you do it. You will stick with something, as long as it works; in fact, you continue doing it until you are an expert at it. You are curious and you tend to be proper, organised and creative. You can be a bit quiet but you have strong opinions that help you make decisions. You enjoy being alone where you can read and have time yourself or with your pets. You are something of an inventor. Your talent to think things through makes you great at solving problems. It also helps you to come up with interesting ideas.

You demand the best from yourself, and this can be tough on you because you want things to be just right. You enjoy being a specialist. As a child, your school report probably said 'polite and quiet, helpful and kind'.

Words that describe you...

Patient  
Loyal
