# KICKSTART YOUR CAREER

Middlesex University, in partnership with Aspire London, is providing free higher education and support that can help you make a big step towards your career of choice.

## SO WHAT'S ON OFFER FOR THOSE WHO SIGN UP?

- A **Skills Scan** to help you get a good idea of where you stand and what skills to focus on
- A series of four professional careers **coaching sessions** to help you refine your focus on job roles that work for you
- Enrolment on a **higher education module** to help you develop new skills and continue to learn at work. You will be able to take either:
  1. **The Review of Learning module**, which is designed for those with experience of learning through work who want to progress their careers further. This will enable you to make a claim for university credit that can count towards a qualification.
  2. **The Learning and Studying at Work module**, which is designed to equip you with the skills you need to maximise learning at work with the opportunity to hear from specialists in a range of employment areas

These opportunities are designed to boost your career prospects and provide a route to higher and degree apprenticeships or other education, training and work in health, social care, digital and creative sectors. For example, this could lead to opportunities to be employed<sup>1</sup> as a:

Registered Nurse degree apprentice
