

# Accessibility in Kaltura Products

This article contains Accessibility information pertaining to Kaltura MediaSpace, Kaltura Video Editing Tools, the Kaltura Player and Kaltura Video Quizzes.

Kaltura's goal is to ensure that its products are accessible. As part of these efforts, Kaltura has undergone accessibility audits performed by Level Access, a 3rd party auditor, and produced a VPAT (Voluntary Product Accessibility Template) that covers the products listed in this article.

## Additional Accessibility References

- See [Accessibility at Kaltura](#) on our corporate site for more information.

## Kaltura VPAT

A **VPAT** is a document which evaluates how accessible a product is according to standards. It is a self-disclosing document produced by the vendor that details each aspect of accessibility standards' requirements and how the product supports each criterion.

- You can find [Kaltura's VPAT](#) on our Corporate Website, created by [Level Access](#).

- Updated VPAT can be found in the [Kaltura Updated Accessibility Conformance Report \(VPAT\)](#) article.
