# BA (Hons) Photography

## Portfolio Guidance

**A portfolio is a collection of your photographic images that demonstrates your creativity, technical skill and passion for photography.**

It is an opportunity to share your curiosity, imagination, experimentation and originality. The portfolio should include 15 – 20 images and this can be presented as a single PDF document or a website.

Not all your photographic work needs to be complete, feel free to include work in-progress projects too. You can illustrate how you research and develop your ideas by including sketchbook work: images from contact sheets, drawings, storyboards and written notes.

Show the work that you really want us to see and be confident to express your creativity.
